

# Cross Canadian Ragweed, Anywhere But Here

Hometown in my rearview  
This truck ain't got enough gas  
It ain't got enough gas to get me fast  
Far away from you  
Paid my dues in other towns  
Here I just blow a fuse  
Nothin' I can do that'll change you  
I won't change my tune  
Anywhere but here, anywhere but here  
Rob a little money from the cashier  
Anywhere but here  
I spent a little time in Nashville  
In the back of a limousine  
They kissed my ass and they shook my hand  
Turned their back on me  
I gotta book of matches and a bottle of kerosene  
Toss 'em a Molotov cocktail  
Maybe that'll change their scene  
Anywhere but here, anywhere but here  
Gather round friends lend me your ears  
Anywhere but here  
Gonna get me a rocket ship  
Aim it towards that sun  
Throw me in and strap me down  
5 - 4 - 3 - 2 - 1  
Anywhere but here, anywhere but here  
Shoot me through the atmosphere  
Anywhere but here  
Anywhere but here, anywhere but here  
Blow me through the ionosphere  
Anywhere but here
