Cross Canadian Ragweed, Jenny

Jenny come back from California
She said her mother's doing fine
Jenny come back from California
With a sparkle in her eye
(verse)
Early last June, she bought a round trip ticket
To San Francisco by the bay.
Trouble at home, she said she couldn't take it.
She needed time to get away.

(repeat chords of chorus) Jenny come back from California. With a brand new pair of shoes Jenny come back from California She come back without her blues (repeat chords of verse) Well there's something about that ocean that's got a romantic feeling When you're standing by the shore A little more time, a lot more healing Maybe she'll love me once more (repeat chords of chorus) Jenny come back from California. A little lighter when she steps. Jenny come back from California Full of life with no regrets (bridge) Never knew what she saw in San Francisco Maybe moonlight by the sea It can fall off in the water Just as long as she comes back to me. (repeat chords of chorus) Jenny come back from California With a brand new diamond ring Jenny come back from California She gathered up the rest of her things. Jenny went back to California.
