

# Cross Canadian Ragweed, Late Last Night

Could you try to keep it down I was up kinda late last night  
Yeah, I'm feeling like I usually feel after I feel alright  
I don't wanna hear another word about morning  
I can't take the light  
Could you try to keep it down I was up kinda late last night

there's something inside this world that's gone so wrong  
There's a gap between the rich and the poor a million miles long  
I dig the fact that you and your friends, you wanna stand up and make it right  
Could you try to keep it down I was up kinda late last night

I was down at the bar like the fool I am  
Dancin on the table to Son of Slam  
I met a whole lotta people I still don't know  
I just rolled in an hour ago  
Could you try to keep it down  
Try to keep it down  
Try to keep it down I was up kinda late last night

I don't wanna hear about your Lollapaloza tour  
Man, I just woke up and where I am I couldn't say for sure  
I ain't the kinda guy to come and break all of you records  
but then again i might  
Could you try to keep it down I was up kinda late last night

Could you try to keep it down  
try to keep it down  
try to keep it down I was up kinda late last night
