

# Crosse Clay, I Found Myself In You

Ellis Hall and Jud Friedman  
So many years, so confused  
Wondering where I'm goin' to  
Roads with no signs  
Dreams left behind  
Nothing made sense without you  
Now that you're here, I understand  
Now it's clear who I am  
It's like coming home  
Achild, but full grown  
The whole world familiar yet new

Chorus:

I have been searching for such a long long time  
I have been missing something in my life  
Lord I was lost, 'til you pulled me through  
I found myself, I found myself in you  
Never belonged, or wanted to  
But now I belong forever to you  
You've made me see, all I can be  
You put your faith in me

Repeat Chorus

Shown me

You know me

Better than I

Have been searching for such a long long time

I have been missing something in my life

Lord I was lost, 'til you pulled me through yeah

I found myself

I found myself in you

I found myself in you

I found myself in you
