

# Crowded House, Sacred Cow

Deliberate provocation  
Is what you gave to me  
You got me going  
You got me going

How could such a simple thing  
Get so out of control?  
You let me down again  
You let me down again

I know my place inside your heart  
The painted figure that glows in the dark  
No, you're not mysterious now  
I don't worship that sacred cow

In my head  
In my head  
In my head

You'd never know it  
You'd never know it

I went home in a jealous rage  
You were rolling on the glass in a younger age  
You know what's good for me  
I know you're too good for me

Cos I have seen inside your heart  
Religious figures that glow in the dark  
No you're not too precious now  
And I don't worship that sacred cow

Go and try as you may  
To get a sharp shift on Judgement Day

You let me down again  
You let me down again

I know my place inside your heart  
The painted figure that glows in the dark  
No, you're not too precious now  
I don't worship that sacred cow

Go and try as you may  
To get a sharp shift on Judgement Day

Sacred cow  
Judgement Day  
Coming your way
