

Crowned King, Reason To Believe

Look above,
The world rests on your shoulders.
With all its love,
And all the hearts it breaks
Don't lose your grip,
Next time around you might be king,
And we must look from all the big mistakes.

Chorus:
Only we can find a cure for our disease,
And only we can fight so others can be free.
We can rise above, bring power to its knees
Only we can find a reason to believe.

Now close your eyes and picture times are perfect.
Now look around, its not too out of sight
To pay the way for future generations
So for peace they'll never have to fight.

Chorus

We'll find a reason to believe!
A reason to believe (3x)
