

# Crucifix, Rise And Fall

Too many times i've wished i had said  
all the thoughts that were in my head  
to all the people that i adore  
the splendor  
never rises to what it's for  
i've had enough, i've said enough  
this picture paints a thousand words  
behind this image,  
the feelings never heard  
you tell me to forgive and forget  
but my love can only hurt  
(chorus)  
the curtains have finally  
closed  
from the ruins i finally rose  
to the melancholy of another day  
this fate i can never betray  
(chorus)  
this is my  
rise and fall , rise and fall
