

Cruiserweight, Have You Had One Of Those Day

Take a drive down memory lane
how could i even try to remember my seatbelt?
All the life tests i've failed and stability stays
riddle me this,which is worse?
being filled with pain or simply being filled
with not really anything at all...

overwhelmed it trapped me,it trapped me no control at all

Shutting down,no production today
it's my despair,my life
a continuous car crash
and the big trucks with their headlights
faces crying "going the wrong way"
and we hope for a whole day with nothing
breaking down and i think gracious so do I

overwhelmed it trapped me,it trapped me no control at all
overwhelmed it trapped me,it trapped me no control at all

Have you had one of those days?
