

# Crush 40, In The Lead

Eyes of the world staring at me  
It makes me feel good  
So many people root for me  
It sets my heart on fire

Turn it up, bring the noise  
Huge crowd goes wild  
There's gonna be some action  
It's time to have some fun

Kick out the lead and not be left to wait  
Getting ready for the shaking up  
I'm playing game with heart and soul  
On the way that's the only way to go  
Let's get it on, 'cause it's showtime

I'm here to be dreams come true  
Where the crowds screams so loud  
You'll never know how good it feels  
It keeps me going strong

I always run like hell  
To serve my every need  
I always believe in myself  
There's nothing I can't do

Kick out the lead and not be left to wait  
Getting ready for the shaking up  
I'm playing game with heart and soul  
On the way that's the only way to go  
Let's get it on, 'cause it's showtime

Kick out the lead and not be left to wait  
Getting ready for the shaking up  
I'm playing game with heart and soul  
On the way that's the only way to go  
Let's get it on

There ain't no way to stop  
Nothing's gonna keep me down  
There's no limits for me  
Nothing's gonna stand in my way
