

# Crush, Really Don't Want To

Catch a train anywhere. I need to take a real vacation  
I'll take a plane, I don't care. I'm suffering from this alienation  
There's always someplace better to be, and somewhere else to go  
But you can't take me, 'cause I really don't want to

Chorus: Have you ever really looked outside? You really don't want to  
You try to keep me locked inside. But I really don't want to

If you could float away from here, what would be your destination?  
Let's touch the sky, and feel the air. I'm waiting for an indication.  
There's always someplace better to be, and somewhere else to go  
But you can't take me, 'Cause I really don't want to

Chorus:X 2

Bridge:

If you listen to me whine. I don't want to hear you cry.

There's always someplace better to be, and somewhere else to go  
But you can't take me, 'Cause I really don't want to

Chorus:X2
