

# Crushead, Flower

For a long time Ive been walking my way of live alone  
always thinking my heart is min  
I can do everything its my own  
I had my friends I had my home  
I had my music and I never felt alone

I wanna thank you to be here  
I need you like a flower needs the sun

Big friendships little wars crawling through my live  
there was no reason to stand up all the time  
With this things I was satisfied  
til you came into my live  
and now my soul fades away

I wanna thank . . .

I know Ill see you again  
so I keep waiting for you  
take a decision  
tell me what is on

Since the time we were together  
we walked on seperate ways  
and I told you that Ill wait  
as long as I could  
But how the time has come for us  
tell me what you want  
I dont want to wait forever  
let us live again once more

I wanna thank...
