

Crystal Castles, Love And Caring

Here's my genius plan
To make a superior man
Anatomically built
This half corpse can't guilt

Infected by your innocent heart
Blue blood, seminal fluid
Shattered glass, shattered ribs
Now my head will start to give

Answer your bottle, wince at me
You're my deacon, passing love
Dr. Death, Mary Beth
Now I have a hearse to get

Solid screams
Save us please
I'll be in love
Drowning in kerosene

What the fuck is this?
Oh, it's the base

When you can't sleep, you think of me
It's a cure, now follow me
Your anesthetic, lay your pace
Mutilate the human race
This way we can be together
Made up friends, stitched with leather
I've been asleep for so long
The silence plays my favorite song
