==Translation==

&lt;/lyrics&gt;  
I chew my gum & jingle the keys with my finger  
my chest aches & unintentionally I shed some tears

Out of character, you fell silent;  
the back of your dirty T-shirt  
His frame is a little scary, but the truth is, he's a gentle person

\* We met in that town, I fell in love with you  
When I remove the cross that we both wear, carry them for luck  
We kissed so much that it seemed endless  
I thought that there would be no end  
It's because you're my first boyfriend

Bitter latte, old blue jeans  
I could come to love a lot of things, &quot;thank you&quot;

The summer holidays when we went out in secret  
we wanted time to stop  
A birthday night, just the 2 of us  
I won't forget anything

We kissed, made peace, & decorated the desk  
A Lovegetti couple; we frolicked like puppies, didn't we?  
But our souls are far apart, only the memories remain  
Being that you're my 1st boyfriend won't change

The morning when I woke up early, the rainy nights

saying "I want to see you" made you troubled  
I was a child, wasn't I?  
I wonder if there was something I could've given you

\* repeat

We met in that town, I fell in love with you  
When I remove the cross that we both wear, carry them for luck  
We kissed till we laughed  
I thought that it wouldn't end  
You'll always be my first Boyfriend  
You'll always be my precious Boyfriend
