It's our time to shine

Between classes, I work out a plan for a favorite outfit for tonight
We'll make our makeup shine & transform into the cutest girls
At the usual place we meet, we'll study by moonlight
Our party time starts from now so don't bother us, ok?

* It's our time to shine
We want to be free
Show them what we got
What we can do
Don't you hear me?

It's our girl's night from here, just me & my girlfriends
Because we'll have secret talks, boyfriends, leave us alone
It's our special time from here, just me & my girlfriends
Because we want to sing & dance till we see the sun

Seizing the floor (eyes on my back)
I get excited while I turn around, (pretty boys) from across the table
Are you doing anything? Tomorrow at school, OK!
Continuing the party time from here,
right now I can't be concerned that we're busy

* repeat

** repeat

It's love (ah, ha), my boy, I'm lovin' you the most
Though we always (exchange sweet kisses)
Depending too much on me is becoming stifling
so I need a break (as for today, let me go!)

* repeat

** repeat twice

We'll gossip, even talk about the troubles of love
It's our secret girls' talk that we'll keep from our boyfriends;
boyfriends, stay away
We wanna strike dramatic poses while

singing along to recent hit songs that we like
till we see the sun
