&lt;/lyrics&gt;

I saw you looking up at the sky. Very lovely

I'm insecure somehow. It seems as if you're disappearing. We was connecting our hands.

Nothing to say as it is. I feel the strong palm of your hand.  
We're not goin' anywhere anymore, right?

\* You're made to meet this love in me, and I wanna thank you for everything.  
Do you promise to protect me? Even if any kind of thing occurs, I'll continue loving you.

The clear breezes of the glittering winter wraps up the road.  
Surely no one with gentle feelings sees the dream in the season.

After this, please, publicly be in the end of love.  
I wish to the stars for the moon to pray.

As it is, I want to live with our believing in tomorrow all along.  
Repeatedly in my heart, until the day the world ends, I'll continue loving you.

No one embraces snow one by one  
I'm born, and to my advantage, I look for warmth, right?

\* repeat  
I'll continue loving you.
