Don't you x3
Love me x3
I can't wait no mo'
(I'm tired of waiting already)

* You don't easily say "Crystal, I love you"
What are you doing? Where are you now?
Hey, it's not that I'm too selfish!
What's happening? (Baby, can you hear me?)
I can't wait anymore
Because you're definitely not good for me
You don't easily say "Crystal, I love you"

I can't believe this...What???
It looks like her boyfriend came on time
Somehow it look like this one's boyfriend came about 5 mins late
If I say that to my guy...
No show, No Call, Oh no.....What time is it?
Even if we finally got together,

your voice betrays that you forgot about our date
Right now, the game is good... I can't believe this..... What???

* repeat

Of course, 30 mins will turn into an hour
Though I knew that you'd be late,
I'm definitely always, I'm always on time, ya know... What time is it?
When I'm at the peak of my irritation
I'll repress my tears
Time is passing by, Hey, Mr "On-Time"
You tell me to wait a little longer with a sweet voice
Don't say like that

* repeat

Don't you x3
Love me x3
I can't wait no mo'
But I wanted to see you
is because of the cold night breeze

What time is it???...

* repeat x2

What time is it???...
