</lyrics>

== Translation ==
</lyrics>
From the time we met,
I'm sure that the whole world began to change
(If it's) right now, I can tell you my feelings honestly

You smiled unoccasionally at the flower that bloomed on the path (&) I love you
Etched in my heart is the moment, shining more than any jewel

* I think of you from the bottom of my heart

what is important thing to you?
Your smile, your tears, I decided that I would protect them forever
I fell in love
I LOVE YOU

Tell me about the dreams & wishes you had when you were a child
For instance, even if we were standing in different places now..

On the day things don't go your way,
let's go to see the nostalgic scenery
The numerous memories will probably surround you gently

I think of you from the bottom of my heart
What do you believe in?
This town, your friends, everyone is on your side
Always love

I think of you from the bottom of my heart
what is important thing to you?
Your smile, your tears, I decided that I would protect them forever
I fell in love

I think of you from the bottom of my heart
What do you believe in?
This town, your friends, everyone is on your side

* repeat
