

Crystal Lewis, I Guess

copyright 2001 Brian Ray, Crystal Lewis

There are moments in my life
When I feel that all is fine, comparable to paradise
Then the wind begins to blow
And my skin begins to show
Back to being vulnerable
Pride tells me to run away
Love tells me to say

I guess I'll fall in love with you again
I guess I fell (I fell for you)
I guess we're better when we are together
I guess I knew

Different views out the same window,
Different steps down the same road
That's what makes us who we are

When I learn to love you deeper,
The grass I thought was greener
I'll see was in my own backyard
Tried to do it my way,
Had to learn the hard way

I guess I'll fall in love with you again
I guess I fell (I fell for you)
I guess we're better when we are together
I guess I knew

I wanna stop wanting, to change the way you do (the things you do)
Much to my chagrin', I fell again, no coincidence my falling for you
I'm still on your side

I guess I'll fall in love with you again
I guess I fell (I fell for you)
I guess we're better when we are together
I guess I knew
I guess I'll fall in love with you again
I guess I fell (I fell for you)
I guess we're better when we are together
I guess I knew
