

Crystal Lewis, I Now Live

copyright Brian Ray

Many people in the world walk around with a hole in the heart
Many people in the world wanna fill that hole with the latest thing that's outta sight
Many people in the world will never truly be set free
The only reason that we live is Christ came down
And died for you and me

I now live because Christ died
And though he had suffered
He suffered it all for me
I now live because Christ died
And though he had suffered
He suffered it all for me

Falling in and out of love is what the world is turnin' to
Never really satisfied, not really sure
Always needin' something more
Looking for another way without the work to get the pay
The wages of a righteous man bring him life, he can surely say

I now live because Christ died
And though he had suffered
He suffered it all for me
I now live because Christ died
And though he had suffered
He suffered it all for me
