

# Crystal Lewis, When God's People Pray

Deep in the dark of despair  
Deep in my heart there's a prayer  
That faith will reign over fear  
That courage and strength will be mine

My heart is heavy I don't understand  
Yet I know my life is in your hands

I realize that I am incapable  
Of changing alone the impossible  
But I believe in miracles  
Together our voices will rise

We are not powerless in the face of fear  
As one we will stand and make our voices clear

When God's people pray things will change  
When God's people pray all the earth will obey  
My faith can't be shaken because I have seen  
The amazing, miraculous happens  
When God's people pray

Our defense in danger  
Our light in the midst of life  
Our strength in the weakest moment  
Our hope through the night, the night

All things are possible when we let go  
Let go of what we can't control

When God's people pray things will change  
When God's people pray all the earth will obey  
My faith can't be shaken because I have seen  
The amazing, miraculous happens  
When God's people pray

The peace that we need will only come when we get on our knees

When God's people pray you know things will change  
When God's people pray all the earth will obey  
My faith can't be shaken because I have seen  
The amazing, miraculous happens  
When God's people pray
