

Crystal Waters, Come On Down (Tampereer Club

don't you wanna party,
body to body?
we all need some healin'
baby, touch the ceilin'
when the beat is thumpin'
keep your body jumpin'
dj's got the rhythm
come on, get with'im

it's just a feeling, just a feeling
what is this feel that I feel,
that is real when you're near?
love that you're near!
and when I close my eyes,
it's all that i hear!!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down

yes, you are the answer,
baby, there's no question
magic seems to happen,
when we're dancin'
the music's got me swayin'
love has got me prayin'
tell me what the deal is
Come on, let's hear it

it's just a feeling, just a feeling
what is this feel that I feel,
that is real when you're near?
love that you're near!
and when I close my eyes,
it's all that I hear!!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down

come on down and dance
let us make a romance
let the music come and move ya
let the beat get into you
come and share with me
come and dare with me
there is somethin' 'bout tonight
and I know that it's right

it's just a feeling, just a feeling
what is this feel that I feel,
that is real when you're near?
love that you're near!
and when I close my eyes,
it's all that I hear!!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down, come on down!
shake it loose and let it go!

come on down, come on down!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down, come on down!
shake it loose and let it go!
come on down, come on down!
come on down!
come on down!
come on down!
come on down!

it's just a feeling, just a feeling
what is this feel that I feel,
that is real when you're near?
love that you're near!
and when I close my eyes,
it's all that I hear!!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down, come on down!
shake it loose and let it go!
come on down, come on down!

come on down, come on down!
hey don'tcha wanna party, party with me?
come on down, come on down!
shake your blues and let it go!
come on down, come on down!
