it's just a feeling, just a feeling  
what is this feel that I feel,  
that is real when you're near?  
love that you're near!  
and when I close my eyes,  
it's all that i hear!!

come on down, come on down!  
hey don'tcha wanna party, party with me?  
come on down

baby, there's no question  
magic seems to happen,

the music's got me swayin'  
love has got me prayin'  
tell me what the deal is  
Come on, let's hear it

it's just a feeling, just a feeling  
what is this feel that I feel,

come and share with me  
come and dare with me

and I know that it's right

love that you're near!  
and when I close my eyes,  
it's all that I hear!!

hey don'tcha wanna party, party with me?  
come on down, come on down!  
shake it loose and let it go!
