

Curt Smith, Rain

Here I am I've got to make it through
Another day with confusion all around me
I'm striking out. I've got to find a way
It feels like I'm starting out on my own
If I could find something to believe in
Something new, a love without a reason
It seems like when the lightning strikes
I need you in my life

I didn't ask for rain
Didn't ask for sun
Didn't ask to be the only lonely one
When you believe in faith
There's no need to be brave
Never on your own
'Cause faith is what it's all about

If I could deal with any situation
Another day of losing and frustration
Then I could say there's one thing that is real
It's something like a love inside
And I need this high to move on with life

I didn't ask for rain
Didn't ask for sun
Didn't ask to be the only lonely one
When you believe in faith
There's no need to be brave
Never on your own
'Cause faith is what it's all about

Time after time I can feel a need to believe
I want to feel love, time after time
Time after time I believe in my mind
