

Curved Air, Bright Summer's Day '68

On a bright Summer's day in the middle of May
With the sun shining down, my baby left town,
my brother broke jail.

Then my Daddy shot mum,
So I've written this song
Just to tell all you folks
out there cracking them jokes
how I felt all along.

Oh you came along
Oh you've heard this song
Oh, You got me wrong,
(I never meant it to be like this
)Oh you came along
Oh you've heard this song
(...on a bright sunny day)

On a bright Summer's day in the middle of May
With the sun shining down, my baby left town,
my brother broke jail.

Oh you came along,
Oh you've heard this song
Oh you got me wrong,
(I never wanted it to be like this)
Oh you came along,
Oh you've heard this song
(And wait until I tell you about you)

On a bright Summer's day in the middle of May
With the sun shining down, my baby left town
my brother broke jail.
