

# Cut Copy, We Are Explorers

Can you tell me a story  
From the end of the night  
Girl you tell to break the ice  
And the love will go fine  
Can you tell me you think straight  
Plot a course in the landscape  
Just tell me you're fine

We are the people  
We are here alone  
We are explorers when beat goes on  
We're on a journey to the morning sun  
Together

Got a face for the frontpage  
You should join me sometime  
I wanna dream up a new age  
If the planets align  
With a hunger for never  
Windows stretching forever  
Just tell me your fine

We are the people  
We are here alone  
We are explorers when beat goes on  
We're on a journey to the morning sun  
Together

You'll get through with a little love  
Just you wait and see  
You'll get through with a little love  
Just you wait and see

Keep my hands up pointing to the sky  
Until the daylight comes, into our minds to rescue us

We are the people  
We are here alone  
We are explorers when beat goes on  
We're on a journey to the morning sun  
Together
