

# Cydonia, Masters Of Stars

They got here in the middle of the night  
The light was really shining on the mounts  
Petrified faces followed that moment  
That's the very day that's signed by fate.

Wisdom & love as the prophets had said  
Will be alright just give it time  
God knows what from abuse  
Of wisdom may come  
You will create your fate through our matrix

The universe is so full of real life  
Adoring and preying it's own Gods  
They're near to the doors of eternity  
The eternal Masters of Stars  
The Gods of Time

And the moment they had to leave  
There emerged a great number of religions  
Time passed by and with it all beliefs  
Prayers got confused with fairy tales

Wisdom & love as the prophets had said  
Will be alright just give it time  
God knows what from abuse  
Of wisdom may come  
You will create your fate through our matrix

The universe is so full of real life  
Adoring and preying it's own Gods  
They're near to the doors of eternity  
The eternal Masters of Stars  
The Gods of Time

[Narration]  
"In all worlds there is both life and death  
It's impossible to erase all memories"

But traces will always be hidden  
Until the day..."when they will return..."

The universe is so full of real life  
Adoring and preying it's own Gods  
They're near to the doors of eternity  
The eternal Masters of Stars
