

# Cyndi Lauper, Dancing With A Stranger

Holding on to the rhythm  
I'm standing in my leather and lace  
People move to the left, and  
Move to the right, and  
The whole place starts to shake

Without a net on a real high wire  
I'm stepping out with my heels on fire

I started dancing with a stranger  
Moving to the break of day  
Dancing with a stranger  
And I just got swept away

Letting go my inhibitions  
Is harder to do than say  
But I surrender to the beat  
I start shuffling my feet  
When I hear that music play

I trip the light fantastic  
I touch the sky and it feels like magic

I started dancing with a stranger  
Moving to the break of day  
Dancing with a stranger  
And I just got swept away

Give me a dance, dance  
Dancing with a stranger  
And it takes my breath away

I ain't looking for mister right  
It doesn't matter to me  
There's something in the air  
Electric I like  
Igniting endlessly

I started to dance...

Without a net on a real high wire  
I'm stepping out with my heels on fire

I started dancing with a stranger  
Moving to the break of day  
Dancing with a stranger  
And I just got swept away...
