

Cyndi Lauper, Minnie And Santa

Worked with a woman named Minnie
One Christmas eve long ago
When I asked "What you doing this evening ?"
Minnie took on a seasonal glow
She said she'd be waiting for Santa
She'd be wearing a bright red bow

[Chorus:]
Minnie And Santa
Minnie And Santa
What they're up to only
Heaven knows she wrote on a card
"Don't take it so hard we're headed for the North Pole"

Now Minnie could not be persuaded
That Santa just did not exist
She swore if she put up some mistletoe
Santa'd come give her a kiss
And there where she'd hung up her stockings
All in their silky, soft, sheen
She'd be laying in wait on a bear skin rug
Where the cookies and milk could be seen

[Chorus:]
Minnie And Santa
Minnie And Santa
What they're up to only
Heaven knows she wrote on a card
"Don't take it so hard we're headed for the North Pole"
[musical interlude]

Now Minnie was older and wiser
Like a dear old Auntie to me
But the night that she ran off with Santa
Was a real epiphany

[Chorus:]
Minnie And Santa
Minnie And Santa
What they're up to only
Heaven knows she wrote on a card
"Don't take it so hard we're headed for the North Pole"

Next Xmas I passed by the bakery
Staring out from on top of a cake
Was jolly old Santa with a big silly grin
And a gal in silk stockings and lace
Oh, Minnie and Santa...
