

Cyndi Thomson, If You Could Only See

(Cyndi Thomson/Tommy Lee James/Arnie Roman)

You come home uncompleted
Down and defeated
Feeling all alone
You think your dreams are passing by you
And deep down inside you
You're running out of hope

If you could only see what I see
You'd see the man that you wished you could be
If you could only see what I see

You're my strength
The light that guides me
The angel beside me
The path that I walk
When I wake up
You're why I want to
The one I hold on to
When I start to fall

If you could only see what I see
You'd see the man that you wished you could be
If you could only see what I see

Wish I could make you believe
In all that you are you don't have to be
Everything to everyone
Everybody's number one
Cause baby you're everything to me

If you could only see what I see
You'd see the man that you wished you could be
If you could only see what I see
