D:a:d, Sunstar

It's far too big For my feet to step by The heart of standing is: -I cannot fly! I'm so involved I can't give it up.. I don't feel like winning, Though I'm on top

See where it takes you And where it takes me Either homefires burning Or we both go free..

Bigger than ever The sun is a star Hold me together I'm flying apart, yeah!

You got a way To keep me on your side You make me so small, I stand sideways and hide

See where it takes you...

Bigger than ever ...

See where it takes you And where it takes me Either homefires burning Or we both go free, yeah!

Bigger than ever...
