Da Buzz, I Love You

I turn on the light
As you open your eyes
Then, I give you a kiss
I've been waiting forever
For this to come true
Now I know that you're burning
Inside my heart

The world is too small to express how I feel
You can always be sure
I will be there to hold you
And night after night
Like the sweetest love
Cause we are one...

Chorus
I tell my secrets for you
I give you all that i have
Please don't tell me we're through
Cause I need you so bad
And in every way I can give
I wanna save it for you
I want you closer than everything
I love you
I love you...

No matter what I said
No matter what I did
I will do what I can
To prove that I'm worthy
You are my god
Without you
I'm falling in misery

The world is too small to express how I feel
You can always be sure
I will be there to hold you
And night after night
Like the sweetest love
Cause we are one...

Chorus
I tell my secrets for you
I give you all that i have
Please don't tell me we're through
Cause I need you so bad
And in every way I can give
I wanna save it for you
I want you closer than everything
I love you
I love you...

How can I say,
I wanna be with you
Until thee end of time
When you are near
There is one thing I want you to hear
I love you
I love you
I love you
I love you...

Chorus
I tell my secrets for you

I give you all that i have
Please don't tell me we're through
Cause I need you so bad
And in every way I can give
I wanna save it for you
I want you closer than everything
I love you
I love you...

Chorus
I tell my secrets for you
I give you all that i have
Please don't tell me we're through
Cause I need you so bad
And in every way I can give
I wanna save it for you
I want you closer than everything
I love you
I love you...
