

Da Buzz, I Wanna Love You Forever

There was a time, when we were in love
And we ran in the sand, through the days and nights
We looked in the sky, the sunset turns over to a full moon descies
The time of my life'.
The hot summer nights are never forever
Oh how can it be that my love's still so strong
I can not sleep, I'll always remember
The look in your eyes when we said goodbye

I wanna love you forever
And tell you how much I care
I wanna hold on together
How can I show you that it's for real
I wanna love you forever'

You took my heart, you took it all.
How can I go on, oh now when I know.
Still holding your hand, a whisper of love
I'll always belive that our love can be true.
The hot summer nights are never forever
Oh how can it be that my love's still so strong
I can not sleep, I'll always remember
The look in your eyes when we said goodbye

I wanna love"
I won't forget the nights we shared
And the love that we had I won't regret the things I said
I wanna love you forever'.
