

Daddy Dj, The Nightmare

You're running
Something's behind you
Something ugly and bad
Like a beast you just can't see
Tortured faces grinning
Empty eyes staring at your soul
The beast is getting closer
And closer and closer
You're in the nightmare
You're in the nightmare
You're in the nightmare
You're running from your own fears
Nothing's real but in your mind
Are you afraid of what you are
You'd like to wake up
To let darkness fade into nothingness
So run, run as fast as you can
Run and save your soul
Run and save your mind
It's a nightmare
You're in the nightmare
It's a nightmare
You're in the nightmare
