

# Dag Nasty, Trouble Is

be prepared  
I know what's coming next  
if she's entertaining doubts I guess that you know what is best  
so I should  
be prepared  
to make due with what is left  
and if I can't prepare myself at least I know what to expect  
my mind's made up about her  
I couldn't live without her  
so many times  
so many times  
I should have thanked god that I have her  
and when I'm back home  
safe in her arms  
don't knock on her door  
don't pick up your phone  
if she's entertaining doubts how do I explain  
a grain of salt for her to take with the things that you say  
despite the distance give me trust  
and I will bring it home to you  
give me till nothing's left but patience and I will bring it home to you  
she only wants to spare you and I the time  
we so faithfully invested  
she throw it in our faces  
you've been taken advantage of  
is that all I'm capable of ?  
if it's just bitterness don't let it blind her
