

Dalbello, Stay With Me

Wouldn't it be nice
If we could be more than just friends?
Discovering ways
To spend our evenings and days
Gettin' to know each other well

It would be so nice
To have you wake me in the morning
We'd float on silvery streams
Creating beautiful dreams
Inside our ivory tower

We shouldn't waste a night like this
Worrying what tomorrow will bring...

CHORUS

So forget about the rest
Forget about the rest
Stay With Me
Let's forget about the rest,
Baby baby,
Stay With Me

We are worlds apart
From a lifetime together
But, we could suppose
That while the curtains are closed
We'd share a timeless ecstasy

If we should lose a night like this
We will always wonder what might have been

CHORUS

So forget about the rest
Forget about the rest
Stay With Me
Let's forget about the rest,
Baby baby,
Stay With Me

BRIDGE

If I could have you here 'til the morning
Explore this feeling touching me, touching you
