

Dallas Frazier, Lord Is That Me

I can see a long line of cars with their headlights on
I can see kinfolks cryin' cause somebody's gone
Then they gather around as it let the sinner men down
And I can see an old preacher prayin' with a frown
Lord is that me tell about this vision I see
Lord is that me if it is have mercy Lord have mercy on me

I can see an old grey haired woman say goodbye to her son
I can see a young widow bowed with a child in her arms
They stay as long as they should showin' what respect that they could
But everybody there was afraid to say something good
Lord is that me...

I can see a long line of cars quickly drive away
I can see an old woman lingerin' behind by the grave
Her wrinkled face is streamin' tears as she stands there trembe in fear
Cause only a chosen few can we took there
Lord is that me...
I can see a long line of cars with their headlights on
