

Damnation, Confession

Forgive me POWER!
For my long time of weakness
For my misery
For submission upon blinds
For feeling guilty
For distraction in day and night
And lost time
For my fear - in my existence
Against myself

In my mind - I was trapped
In my fury - I was man who's dead
The source of life - The sense of mankind
To care for own worth inside - and f**k abject lies

Fight! Fight! Against christianity
Fight! Against their "morality"
Fight! Against sick society
Fight! Against obscurity

Leading now - in my life
I create - to take pride
I'm the thorn - I despise
I grab your faith - for my survive

Fight! Fight! Against christianity
Fight! Against their "morality"
Fight! Against sick society
Fight! Against obscurity

I'm power
I'm lord
I'm God on my path
Always...
