

Damone, Now Is The Time

I can put your pieces back together
While I take the rest of you apart
I didn't think my luck would last forever
So I think right here is where we'll start

When the lines of the past
Have been blurred it gets much easier
To tell those around to let go

Now is the time
When we find
Out what's really happening
How was the ride of your life?
Now is the time
When we find
Out what's really happening
How was the ride of your life?
Of your life

You can put your faith in me forever
While everything around you falls apart
If you lost what you got when they took you to bet
And they beat you down for every penny, well then
You can bet that I know who they are

When the lies from the past
Left you burned it gets much easier
To tell those you love to let go

Now is the time
When we find
Out what's really happening
How was the ride of your life?
Now is the time
When we find
Out what's really happening
How was the ride of your life?
Of your life

Of your life

Now is the time
When we find
Out what's really happening
How was the ride?
Now is the time
When we find
Out what's really happening
How was the ride of your life?

Of your life

Now! Whoa-oh, whoa-oh, whoa-oh-whoa-oh
Now! Whoa-oh, whoa-oh, whoa-oh-whoa-oh
