

Dan McCafferty, Into The Ring

Lyrics McCafferty / Music Charlton

Into the ring and let the fight begin
The crowd are all in
They wanna see some blood
You've been telling everybody
'bout the things that you're gonna change
Now's the time to toe the line
'cause everybody's sick and tired of games
We wanna see what you're made of

Time for the dance
Another side-step chance
The judges are here
They wanna feel the beat
Got your number on your back
And you get points for every move you make

Wanna see those flashing feet
We wanna see if you can make a break
And have you
Have you got the right stuff
Have you
Have you got the right stuff

Are we doing something for you
Or can you do something for me
Are you gonna make a few moves
Or sit back and let it all be
Wait and see

Into the ring and let the fight begin
The crowd are all in
They wanna see some blood
You've been telling everybody
'bout the things that you're gonna change
Now's the time to toe the line
'cause everybody's sick and tired of games
And have you
Have you got the right stuff
Have you
Have you got the right stuff
Are we doing something for you
Or can you do something for me
Are you gonna make a few moves
Or sit back and let it all be
Wait and see
