

# Dance Gavin Dance, Synergy (Feat. Rob Damian)

No frowns around  
I'm now an older clown  
I think I honked my spleen

The money came to answer my prayers

If you filming me piss  
It's probably best, I stop the stream  
My colon is golden, eyes they gleam

Waking up  
Courage  
in my cup  
Last was night was rough  
Don't remember much  
Waking up  
Courage in my cup  
Last night was rough  
Doing what I love  
Running on fumes  
What I can do?  
Waiting for my score to come through  
Desperate for some motivation  
Running on fumes  
Checking my views  
Scrolling for a comment that proves  
I don't need more motivation

I'm locked in  
I'm stocked up  
Often  
I'm shopping  
my face  
Is frosted

I'm living life as if I'm already dead  
I'm spilling cups and then I'm fucking the fed  
I'm locked in  
And topped up often  
No caution  
My pace is toxic  
I'm living life as if I'm already dead  
Open and shut you know I gave it my best  
Was feeling panicked so I bought myself knife  
Then I felt empty so I went and got a myself a wife  
I tried to learn about the meaning of my life  
But I couldn't quite decide on which good book to buy

Cause I'm like that  
Priceless  
Finest  
Ice white platypus  
Blessing the things that I touch  
Worship me worship my stuff

Fitted with a gimmick  
Say a cynical wow  
Many men went in it  
But they couldn't get out  
All of the things that we touch  
Suck all the life out of us

I'm living life as if I'm already dead  
I'm living life as if I'm already dead

Hole in the world  
Holding some pearls  
Making it tough cause I'm never enough

Hole in the earth  
Sleep on my perch  
Take some time off to forget what your worth  
Never
