Dandy Boy, Rock And Or Roll

Every crowd I'm in
Well I stand alone
and this ain't a party
I wanna go home

Everybody's looking like
they are having so much fun
I know them for ages now
What the hell all went wrong?

Whatever they say it is not true
he wasn't soft because of you
Whatever they say it is not true
Beer didn't get me on top of you

Every place I'm at
I'm bored I'm alone
Do you call this music?
I wanna go home

Everybody's looking like
they are having so much fun
I know them for ages now
What the hell all went wrong?

Whatever they say it is not true
he wasn't soft because of you
Whatever they say it is not true
Beer didn't get me on top of you

Whatever they say it is not true
One night and I am the fool
Whatever I say just might be true
but my regrets are overdue

Let's go home
Take me home
I wanna go home.
