

Danforth, Justice

From the depth of my dirty soul
The anger grows inside me fast
I can feel it on my neck
with my shaking hands
I fear I've lost control !!!

bang bang bang

Oh Justice,
It sounds like a bullet into your head
Brutal expression of the wish, to rape your justice like a beast
I fuck your rules, Justice by myself
We don't care about your system. Justice by ourself

Tell me why!
For a small robbery , poor people are put to jail
whereas those who use their fame
can keep the head cold
money is freedom

That's the way justice goes

Brutal expression of the wish,
to rape your justice like a beast

Brother let remind me another
time and place of equality
Illusion! That's corruption
Now it's justice by my self

Understand why I feel so bad
But i can only scream, I lack of power
Justice is deaf to anyone's pray
But not so blind to the gleam of gold
so
Comprend pourquoi je ne te regarde pas gentiment
Voil pourquoi j'ai plus envie de faire de sentiments
Quand le systme nous consume inlassablement
Et que l'humanit dans sa faiblesse subit aveuglment
Ce systme de putain?
A croire kon peut plus croire en rien
Abus de pouvoir sur les trottoirs, homicide volontaire
la justice des hommes sur terre tient les peuples en laisse
et en cage, raffines ou ghetto
elle nous rduit l' esclavage

Brother let remind me another
time and place of equality
Illusion! That's corruption
Now it's justice by my self
