

Daniel Cage, Big Blue Sky

Even long distance you know i come running
I see you coming, but i never find you here
if it was summer I'd jump into your waterfall
It's too cold as the night begins to fall

Pre- Chorus

The sun could come out
And I could feel again

Chorus

If I lose this love, where do I go
My minds made up but you dont know
You're so sorry
I dont see you cry
You find me here under my big blue sky
under my bug blue sky

And If I am jaded by what I think my world could be
You and I made it, Then spread it across the seven seas
but your words could turn black and blue
Do i know, Do i know, Do i know you

Pre-Chorus

Chorus

Don't you understand, it's somewhere to land

Chorus
