

# Daniel Cage, Hannah

Hannah looked up then she looked down  
then she through her love around to me  
When you came a year ago  
You didnt feel the weight of all the world  
do you feel it  
Because the night will come  
And you wont go out  
But time it can turn so hear me out

Chorus

All The angels fall from the sky  
if you'd believe so would i  
Take my hand and dont you cry  
Sing me something sweet make us all believe tonight

Hannah, Hannah wont you come  
it is like you've been here all along  
Open up the book you knew  
to see the faces staring back at you  
dont you see them  
Becuse the moon overhead lights your ground--- and everybody talks  
But we hear no sound

Chorus

And if its only yesterdays noose,  
then i think that we could go out in the night

Chorus

Hannah, Hannah dont you go i just want to know
