

# Daniel Powter, Good Daay

Where is the moment when needed the most  
you pick up the litter thats all in the parks  
they tell me your life's been way of line you fall into pieces every time but i don't need no carrying on  
u stand line trying make a new song  
you look at the man and then you carry on  
they tell me your life's been way of line you fall into pieces every time and i don't need no carrying on

(chorus)

cause you had a good day  
your taking one down u sing a good song just to spin you around  
you say you not sue you tell me you don't lie you work on your singing then you go for a drive you h  
well you need a clear sea holiday the blue sky and the warm day
