

# Daniel Powter, Someday Soon

You and me, we got this thing going on  
But the thing I know is the things when I sing my song  
And I hope that someday soon you'll fall apart  
So you can come back and mend my broken heart

How's it been when you and I go wrong  
You and me we sang the saddest songs  
But I'm hoping someday soon you'll fall apart  
So you can come back and mend my broken heart

Yeah  
I could assume that we're going nowhere  
I can assume that we're fallin' apart  
You and I been closer than to stand along the start

'Cause I could assume that we're going nowhere  
I could assume that we're fallin' apart  
As long as you got me with you, well I could say at least I'ma start

And I could assume we going somewhere  
I can assume that were fallin' apart  
Everything from here will be the start.
