

Danity Kane, Phase

Yess sirr
Aye blackstars
Weezy weezy weezy baby
DK, DK
It's another one, it's official
Young mula baby

(Verse 1:)

He knew from the start
He had me all sprung
I had no choice to touch him
He had that edge
The way he worked me
He had me open
I could tell he was trouble
My girls told me that he was not the one
They said mama don't you trust him
When he touched me
All the warnings, they just blew past me
I know that he is trouble

(Hook:)

I gotta find a way to get through this
This dude is killing me
Got me caught up in it
There's no way to free me
And I'm playing the fool because I know he's no good

(Chorus:)

That's why it's just a phase
That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
That that I'm goin through
Such a shame
That he got me breaking all my rules

Got me tripping
Don't know what to do
They say it's just a phase

(Verse 2:)

Everytime I think
I got the strength to leave
I pack my bags
He says come with me
Gets on his knees
And makes promises that he can't keep
And I believe him
I thought I was stronger than this
A southern girl
With southern dreams
But he could see
He controlled me

(Hook:)

I gotta find a way to get through this
This dude is killing me
Got me caught up in it
There's no way to free me
And I'm playing the fool because I know he's no good

(Chorus:)
That's why it's just a phase
That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
That that I'm goin through
Such a shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
