

# Dante Thomas, Let It Be Love

Let's spend the weekend  
Just you and me, babe  
We'll take no phonecalls,  
No company  
Cuz 2night is a special night  
And we owe it to each other to talk (oooow)  
About our feelings and giving love a try  
What a emotion right...  
Now it's time to face the little things  
That you didn't gave time for in our lifes...  
And I don't mind letting you know....

Let it be love  
Let it be all I imagined, baby  
Hoping you'll found all you wanted in me  
Girl let's make it right  
Baby, let it be love (love love)  
Oooh baby let it be love

Let it be love  
Let it be all I imagined, baby  
Hoping you'll found all you wanted in me  
Girl let's make it right  
Baby let it be love (love love love)  
Let it be love...

Listen...

Honey, I'm trying  
To make it work (work)  
But you keep on saying  
You've been hurt  
And it said: How do you expect???  
To move forward  
When you live in the past...  
Oooh Why are you keeping me on the outside???  
You do,  
But you don't know why...  
Oooh why do you wanna fall in love at all....  
Will you decide  
If you'll be mine  
And I still hold on to the thought....

Let it be love  
Let it be all I imagined, baby  
Hoping you'll find all you wanted in me  
Girl let's make it right  
Baby let it be love (love love)  
Let it be love....

Let it be you...  
Let it be me...  
We'll find our way  
And you will see (girl you will see)  
Your everything  
I'm dreaming of (I'm dreaming of)  
You're everything I wanted of  
And I still hold on to the thought

Let it be love (let it be love)  
Let it be all I imagined, baby (All I imagined it would be)  
Hoping you'll find all you wanted in me (hoping you'll find)  
Girl let's make it right  
Baby, let it be love (love love)

Let it be love

Let it be love

(Girl you know I just can't live another day without you

Holding, loving you, kissing you,

This is what i am going to do)

Let it be all I imagined, baby

Hoping you'll find all you wanted in me

Girl let's make it right

Baby let it be love (love, love)

Let it be love...
