

# Darin, Seasons Fly

I still see your beautiful as you were  
Like the winds you blow me away  
To the dreams  
That's where I meet you  
I never wanna wake up

Wish we could stay here  
In this moment  
'Cause I miss you

Watching the seasons fly  
Going around in circles  
Why, why you left me all alone  
Thinking why you can't come home  
The nights are killing me  
Without you baby I can't sleep  
You took my heart out, kept it well  
Now you're gone

For every step I take  
The road just seems longer  
Like in a box I'm not getting out  
Wanna feel stronger  
But the room is getting smaller  
'Cause all I think about is her

Watching the seasons fly  
Going around in circles  
Why, why you left me all alone  
Thinking why you can't come home  
The nights are killing me  
Without you baby I can't sleep  
You took my heart out, kept it well  
Now you're gone

You're gone

Watching the seasons fly  
Going around in circles  
Why, why you left me all alone  
Thinking why you can't come home  
The nights are killing me  
Without you baby I can't sleep  
You took my heart out, kept it well  
Now you're gone x2

You're gone

So she's coming back no more  
So she's coming back no more  
So she ain't coming back no more
