

Darin, Superstar

Spend Saturday with no money
Lay on the grass, we don't cut it
Somehow you're keeping me oh, high, oh
I'm down for even more loving
But I'm done with keeping it covered
Just harmony, you and me
Kinda wanna say it in front of everybody
That I love the way you make me feel
Kinda love it that I never saw it coming
But I gave it up to destiny
Oh, I (you know it)
I just wanna be near your heart
'Cause I've been watching from afar
And you look like a superstar
(Superstar, superstar, superstar)
Oh, I (you know it)
I'ma take you dancing on Mars
(Superstar, superstar, superstar, ah-ah)
The galaxy is where you are
And you look like a superstar
(Superstar, superstar, superstar, ah-ah)
It's a better world with you on it
Just say the word and you got it
Somehow you're keeping me so high, oh
I started low but who doesn't?
You brought me up now I'm buzzing
So stay with me, stay with me
Kinda wanna say it in front of everybody
That I know you got a hold on me
I just love it that I never saw it coming
But I gave it up to destiny
Oh, I (you know it)
I just wanna be near your heart
'Cause I've been watching from a far
And you look like a superstar
(Superstar, superstar, superstar)
Oh, I (you know it)
I'ma take you dancing on Mars
(Superstar, superstar, superstar, ah-ah)
The galaxy is where we are
And you look like a superstar
(Superstar, superstar, superstar, ah-ah)
You're an icon of your own
Shining over everyone
Ain't no planet where you from
You're a superstar
Ohh, I (you know it, woo)
I just wanna be near your heart (oh)
(Superstar, superstar, superstar, ah-ah)
'Cause I've been watching from a far
(I've been watching from a far)
And you look like a superstar
(Superstar, superstar, superstar) baby
Yeah, yeah, yeah, yeah
Oh, I (you know it)
I'ma take you dancing on Mars
(Superstar, superstar, superstar, ah-ah) (take you dancing)
The galaxy is where we are (yeah, yeah, yeah, yeah)
And you look like a superstar
(Superstar, superstar, superstar) ohh
You're an icon of your own
Shining over everyone (yeah, yeah)
Ain't no planet where you from
You're a superstar
